Comments: Capital should be provided to each every participant in order
to become fully self-reliance, because in any business activities, ca-
pital is the much more about to concern.
in view of the above point, I deeply urge total to find a way for
proper solution to this problem

Comments: In the future, I would recommend the organizers to make provisions for financial empowerment in form of grants or venture capital, or even loans for take off as most of our trades ~~are~~ require huge capitals that are not readily available to us the participants. Money spent on accommodations could be given to participants to make their own arrangements, this could also provide additional funding.
